HOMEWORK 2 – YPD150030

HOMEWORK 2 :

First of all thank you for this assignment, because of this I was able to make a personal website of mine. I have shown this website to professor. I have created separate tabs for all the things. There were certain things in assignment which I was not able to fit in the website, so as per professor's suggestion I have added it to 'Extras' tab.

EXTRAS, ACADEMICS, EDUCATION, HOME, EXPERIENCE Tab contains:

1. Meta tags
2. HTML Semantic tags
3. Unordered list
4. Unordered list
5. Definition list
6. Table
7. Form
8. Link to UTD Page is in academics
9. HTML 5 Geolocation
10. Storage API in clicks
11. External stylesheet firststyle.css in css folder
12. Multiple class based selector
13. Multiple id based selector
14. 2 class+id selector
15. 2 descendants based selector

 Click on Part 2 link to see the part 2 of assignment to see the design.

It is also hosted on
http://utdallas.edu/~ypd150030/

Thank you!
Yogesh Darji
